

KEITH HO

SOFTWARE ENGINEER

ABOUT ME

I am a Sydney based Software Engineering student at General Assembly with a background in both Mechanical and Electronics Engineering. With multiple years of working experience in the electronics industry, I am a problem-solver who never gives up and is solution oriented. I am looking for a role in hi-tech or electronics companies, where I can utilise and combine my previous skills and transition easily into a team as their newest Software Engineer.

SKILLS

- **HTML / CSS**
- **React JS / Redux / Context**
- **React Native**
- **Ruby / Ruby on Rails**
- **Next JS**
